COMMITMENT TO THE AUSTRIAN CODE OF CORPORATE GOVERNANCE

The Austrian Code of Corporate Governance, in line with international standards, represents a body of rules for good corporate governance and supervision on the Austrian capital market. The Code, introduced in 2002, aims to establish a responsible system of management and supervision of companies that is geared toward creating sustainable, long-term value. The Code is designed to provide a high degree of transparency for all company stakeholders. For this reason, investors and issuers recognise the Code as an indispensable part of the Austrian system of corporate governance and of Austrian business life.

The version of the Code that is valid for the 2010 financial year is the January 2010 version – available at the website of the Austrian Working Group for Corporate Governance (www.corporate-governance.at) and the website of STRABAG SE (www.strabag.com -> Investor Relations -> Corporate Governance -> Code of Corporate Governance).

STRABAG SE is fully and without exception committed to the Austrian Code of Corporate Governance (as amended in January 2010) and its aims and sees compliance with all the rules contained within the Code (as amended in January 2010) as a top priority. This commitment by STRABAG SE is voluntary and aims to boost shareholder confidence and to constantly optimise the group's high internal legal, behavioural and ethical standards.

This commitment requires STRABAG SE to do more than merely comply with the prevailing laws and legislation. Voluntary self-imposed obligation means that STRABAG SE must explain non-compliance with the so-called C-rules ("comply or explain") which go beyond the legal requirements. In line with this part of the Austrian Code of Corporate Governance, STRABAG SE explains its non-compliance with C-Rules 2 and 57 of the Code (as amended January 2010):

C-Rule 2 of the Code (as amended January 2010): Among the shares of STRABAG SE are two special registered shares with an associated right to nominate one member of the supervisory board each; this is advantageous for STRABAG SE because it guarantees the know-how of important stakeholders on the supervisory board.

C-Rule 57 of the Code (as amended January 2010): Because of the international nature of the group's business, it can be advantageous for STRABAG SE to appoint members of the management board of listed companies as members of the supervisory board even if it means non-compliance with this rule. Compliance with all legal requirements is a matter of course.

STRABAG SE further endeavours to abide not only by the minimum requirements but also by all of the Code's R-rules (Recommendations).

NOTES ON THE COMPOSITION AND WORKING METHODS OF THE MANAGEMENT BOARD AND OF THE SUPERVISORY BOARD AND ITS COMMITTEES

WORKING METHODS OF THE MANAGEMENT BOARD AND OF THE SUPERVISORY BOARD

The management and supervisory boards of STRABAG SE are fully committed to the objectives of the Austrian Code of Corporate Governance as amended in January 2010 and see compliance with all the rules contained within the Code as a main obligation. This means that STRABAG SE is constantly working to maintain and optimise its high internal legal, behavioural and ethical standards.

In line with the rules of the Code, the management and supervisory boards of STRABAG SE work together on the basis of

- regular and extensive informing of the supervisory board by the management board as to all relevant matters concerning the development of the company's business, including the risk situation and risk management in the company and the important group entities;
- the regular exchange of information and opinions between the CEO and the chairman of the supervisory board concerning strategy, the development of the business, risk management and important business transactions, particularly acquisitions and disposals, and the immediate informing of the chairman of the supervisory board of any important information; as well as
- an open exchange of opinion and open dialogue among the members of the supervisory board as well as between the members of the supervisory board and the management board.

The management of STRABAG SE and the individual members of the management board conduct their business in accordance with the prevailing law and legislation, the articles of association, and the management board's rules of procedure as approved by the supervisory board. The rules of procedure govern the work of the individual members of the management board as well as the allocation of duties within the board. Coordination within the management board occurs during regular meetings, which are held approximately every two weeks, but also in the form of an informal exchange of information. Matters discussed at the management meetings include the current operations and the company strategy. Also discussed are any current or outstanding measures to be implemented by the relevant management board members under the "four-eyes principle". The rules of procedure require the management board or the individual management board members to provide extensive information and reporting to the supervisory board and define an extensive catalogue of measures and legal transactions which require approval by the supervisory board.

Information regarding the supervisory board and its committees, their decision-making rights as well as a report on their activity can be found on page 5.

For 2007 and the following years, board member pay will be based on a system of remuneration which, in addition to a fixed base salary, foresees a variable portion dependent on the achievement of specific earnings and profit figures calculated according to principles of cost accounting. The profit-related bonus is basically calculated as a fixed percentage of the STRABAG Group profit according to cost accounting principles less a minimum profit. If this value surpasses the simple fixed amount, a sliding scale is applied with a maximum profit-related bonus of 200 % of the fixed salary possible. If a minimum profit is surpassed (profit according to cost accounting principles compared to construction output), a minimum profit-related bonus is granted; the chairman of the management board may also receive additional non-monetary remuneration, rounded to full €T 100, when pre-determined targets are met. From the 2011 financial year, 20 % of the bonuses of the members of the management board will be retained and deposited on a personal clearing account based on long-term, sustainable, multi-annual performance criteria. The payment from the personal clearing account will take place at the end of the term of the management agreement.

Furthermore, the members of the management board have the right to a company car. Accident insurance provides coverage in the event of death or disability, a private liability insurance policy covers the legal liability of the members of the management board which may arise from third-party personal injury, property damage or financial losses. The board members are also covered by legal expense insurance in the event of claims resulting from administrative or criminal violations. Insurance coverage exists for damage claims resulting from third-party or group financial losses as the result of neglect of duty during service for the company.

The members of the management board are subject to a competition clause for the period of their service. If a member of the management board is dismissed without cause, the fixed base salary is paid for the full term of the contract. In its meeting of 2 December 2010, the supervisory board of STRABAG SE approved the extension of the existing management contracts as well as the appointment of DI Wanker to the management board. With the decision, Dr. Haselsteiner's management contract expires on 31 December 2015, those of the remaining members of the management board on 31 December 2014.

Since 1 July 2009, all management board members perform their services on the basis of employment contracts and are subject to income tax regulations. One management board member is entitled to non-growing pension payments from subsidiaries of the company. No other pension agreements exist between the company and the members of the management board. One management board member has a right to legal and contractual severance pay in the event of the termination of service to the company, with the maximum amount set by the Austrian Employee Act (oAngG).

STRABAG SE has further decided against a stock option programme for management board members. No additional recompense is granted for internal group mandates or functions. No prior agreements or exception rules exist for the event of a public takeover offer.

Due to the system of remuneration of the management board members as presented and the evaluation conducted in March 2011 by the law firm Berger Saurer Ettel Rechtsanwälte, STRABAG SE explains the non-compliance with C-Rules 27 and 27a of the Code (as amended in January 2010) as follows:

1) Non-monetary after deductibles

2) Left the management board of STRABAG SE on 31 August 2010.

3) Left the management board of STRABAG SE on 31 December 2009.

C-Rule 27 of the Code (as amended in January 2010): It is a matter of concern for STRABAG SE that remuneration of the management board members be made according to measurable criteria in a way that is transparent and easily comprehensible. The remuneration of the management board is therefore based on the scope of the work, the responsibilities and the personal performance of the individual management board member as well as on the achievement of the corporate goal, the size and the economic situation of the company. Non-financial criteria are not applied for the remuneration as these do not guarantee a transparent and easily comprehensible remuneration within the business activities of STRABAG SE.

C-Rule 27a of the Code (as amended in January 2010): The previous clause in the management contracts regarding severance payments in the case of premature termination has proved its worth, so that STRABAG SE sees no reason for changes or amendments in this regard. In the case of premature termination of a management contract without material breach, the management board member's claim to the annual fixed portion remains – but not for the performance-based variable portion – for the remaining term of the contract. No severance payment is made in the case of premature termination of a management contract for a material reason for which a management board member is responsible.

REMUNERATION REPORT – SUPERVISORY BOARD

The Annual General Meeting decides on the annual remuneration of the members of the supervisory board nominated or elected by the shareholders as well as on any additional remuneration for special tasks performed, if applicable.

At the Annual General Meeting of 27 February 2007, the shareholders approved annual remuneration of € 15,000 for the regular members of the supervisory board, € 25,000 for the vice chairman and € 50,000 for the chairman. Members of the supervisory board who are elected to or leave the board during a financial year are remunerated in accordance with the actual period of their membership on the supervisory board pro rata temporis.

Additionally to their annual remuneration, the supervisory board members also receive cash compensation for expenses. The supervisory board has further approved a € 100,000 limit on remuneration for consultant activities for its former chairman o. Univ.-Prof. DDr. Jud outside of his board function. Furthermore, the members of the supervisory board are, in accordance with the Articles of Association, covered by D&O (directors and officers) liability insurance up to a certain maximum amount. The insurance covers the personal liability of the supervisory board members in the event of careless neglect of duty during their service for the company.

In 2010, no other remuneration was paid to the members of the supervisory board. There were no other transactions with members of the supervisory board.

MEASURES FOR THE ADVANCEMENT OF WOMEN

In accordance with Section 243b of the Austrian Business Enterprise Code (UGB) and L-Rule 60 of the Austrian Code of Corporate Governance (2010), the corporate governance report must indicate the measures taken to promote women to the management board, the supervisory board and to leading positions in the company.

STRABAG SE declares that it basically promotes women and men equally. There are no salary differences between men and women who perform the same work and have the same level of education.

Traditionally, mainly men are employed in the construction sector. It is noteworthy, therefore, that two women sit on the supervisory board of the company: Kerstin Gelbmann and Magdolna P. Gyulainé¹⁾. The supervisory board thus has a female percentage of around 18 % and a percentage of female members appointed the works council of 20 %.

Additionally, 125 women (= 10 % of the corporate management) hold a leading position as defined by Section 80 of the Austrian Stock Corporation Act (AktG).

The company has also set up kindergartens at its offices in Vienna, Donau-City-Straße 9, and in Bratislava, offering employees affordable, all-day childcare. The childcare centres are designed to help employees reintegrate into professional life after their parental leave.

¹⁾ Magdolna P. Gyulainé was appointed to the supervisory board of STRABAG SE by the STRABAG SE works council.

INTERNAL AUDIT REPORT

The STRABAG Group's internal audit department is a neutral and independent authority which again conducted more than 200 internal audits in the 2010 financial year. It is as a central part of the group's risk management.

In accordance with the rules of the Austrian Code of Corporate Governance, the internal audit department is set up as a staff unit of the management board of STRABAG SE, giving it the greatest possible amount of independence. The internal audit department plans and conducts process-independent and neutral audits of all of the group's divisions in Austria and abroad. The audit planning is constantly updated to meet the current needs.

In 2010, the internal audit department again conducted more than 200 audits in all divisions worldwide, including individual objects as well as entire organisational units. The audits covered all of the group's divisions and subdivisions as well as the most important contracts and orders of the year. The routine and special audits served to

recognise and avoid risks, to reveal opportunities and to monitor proper conduct and compliance with the code of ethics

Given its technical and commercial competence, the internal audit department forms an important part of the group's risk management and internal control. With its comprehensive approach, the use of uniform auditing standards and the neutral reporting, the internal audit department also contributes to the standardisation of processes and structures in the entire group.

The internal audit department reports regularly to the CEO and to the supervisory board's audit committee regarding the audit plan and significant events of its work. The audit reports are sent to the audited units and divisions, to the unit and division managers, and to the management board, and are made available to the financial auditors.

REPORT ON THE EXTERNAL EVALUATION

In accordance with Rule 62 of the Austrian Code of Corporate Governance, STRABAG SE has since the 2008 financial year commissioned an external evaluation of compliance with the rules of the Code. For the 2010 financial year, the evaluation was conducted by the legal firm Berger Saurer Ettl Rechtsanwälte. The results of the evaluation from March 2011 are available at the STRABAG SE website at www.strabag.com -> Investor Relations -> Corporate Governance -> Formal Obligation and Evaluation and can be summarised as follows (excerpt from the 2010 Corporate Governance Evaluation Report for STRABAG SE, March 2011):

"Following evaluation, we can confirm that STRABAG SE complied with the rules of the Code (2010) during the 2010 financial year, in so far as these were included in STRABAG SE's declaration of commitment to compliance, with two exceptions. The exceptions involve two parts of the 2010 Code which were newly introduced on the basis of the EU remuneration recommendations. These parts, specifically part 4 of Rule 27 and part 1 of Rule 27a, concern, respectively, the assumption of variable remuneration components for the remuneration of management board members (Rule 27) and severance payments in the case of the premature termination of management board members (Rule 27a). Several rules were not applicable to STRABAG SE during the period of evaluation."
