

A diversified leader in **construction**, **innovation** and **financial strength**.

Investor Presentation | April 2026

Disclaimer

This presentation is made by STRABAG SE (the "Company") solely for use at investor meetings and is furnished to you solely for your information.

This presentation speaks as of April 2026. The facts and information contained herein might be subject to revision in the future. Neither the delivery of this presentation nor any further discussions of the Company with any of the recipients shall, under any circumstances, create any implication that there has been no change in the affairs of the Company since such date. None of the Company or any of its parents or subsidiaries or any of such person's directors, officers, employees or advisors nor any other person (i) accepts any obligation to update any information contained herein or to adjust it to future events or developments or (ii) makes any representation or warranty, express or implied, as to, and no reliance should be placed on, the accuracy or completeness of the information contained in this presentation. None of the Company or any of its parents or subsidiaries or any of their directors, officers, employees and advisors nor any other person shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising, directly or indirectly, from any use of this presentation. The same applies to information contained in other material made available at the meeting.

This document is selective in nature and is intended to provide an introduction to, and overview of, the business of the Company. Where any information and statistics are quoted from any external source, such information or statistics

should not be interpreted as having been adopted or endorsed by the Company as being accurate. This presentation contains forward-looking statements relating to the business, financial performance and results of the Company and/or the industry in which the Company operates. These statements generally are identified by words such as "believes", "expects", "predicts", "intends", "projects", "plans", "estimates", "aims", "foresees", "anticipates", "targets", and similar expressions. The forward-looking statements, including but not limited to assumptions, opinions and views of the Company or information from third party sources, contained in this presentation are based on current plans, estimates, assumptions and projections and involve uncertainties and risks. Various factors could cause actual future results, performance or events to differ materially from those described in these statements. The Company does not represent or guarantee that the assumptions underlying such forward-looking statements are free from errors nor do they accept any responsibility for the future accuracy of the opinions expressed in this presentation. No obligation is assumed to update any forward-looking statements.

By accepting this presentation, you acknowledge that you will be solely responsible for your own assessment of the market and of the market position of the Company and that you will conduct your own analysis and be solely responsible for forming your own view of the potential future performance of the Company's business.

Rounding differences may occur due to the use of automated calculation aids.

STRABAG is the
strongest force for
building a better
future.

How our vision becomes reality

By advancing progress along the entire value chain. We create value for people and the environment by taking an end-to-end view of construction over the entire life cycle.

We are actively shaping the future of construction with a clear goal: to design, build and operate construction projects in a way that protects the climate and conserves resources.

The STRABAG value proposition

01

Leading.

STRABAG is the largest construction group in CEE, combining local expertise with global reach.

As of 31 Dec. 2025

Focus on growth markets drives order backlog

- 1 Water infrastructure project HARP²⁾, replacing six tunnel sections; design & build incl. 25 years of maintenance
- 2 Turnkey construction of first phase of Innovation Park Artificial Intelligence (IPAI)
- 3 Upgrade of key transport corridor linking Gateway and Bruce Highways, Brisbane
- 4 Construction of a major European semiconductor fab
- 5 Acquisition of several major rail projects in Germany, Eastern & South-East Europe
- 6 Fehmarn Sound Crossing: major contract for tunnel link to island of Fehmarn

Operating segment: ■ North + West ■ South + East ■ International + Special Divisions

1) Expected construction output; 2) Haweswater Aqueduct Resilience Programme; included in STRABAG's PPP portfolio

Key strategic topics for a sustainable 6% EBIT margin by 2030

PEOPLE.

More for people!

Employee focus

promotes our most important asset:
people.

Global-local presence

ensures that we are anchored
in the local communities.

PLANET.

More for the planet!

Circularity

helps us fight environmental pollution
and the shortage of raw materials.

Expertise in the energy sector

makes us a key player in shaping
the energy transition.

PROGRESS.

More for progress!

Technology leadership

helps us to constantly become more
efficient and effective.

Depth of value creation

makes us more resilient
to external influences.

Well on track to achieve the goals of Strategy 2030

	2022 (base year)	2025	2030 (target year)
Output volume (€ bn)	17.7	20.4	CAGR ~ 6%

From raw materials to operations – all from one source.

End-to-end integration for maximum flexibility

We are pursuing a flexible business model as a way to react quickly to changes in the market environment. We consider this principle to be a key competitive advantage.

Our flexibility is supported in part by our diversified portfolio, which extends far beyond traditional construction activities to include areas such as building materials or property and facility services.

> € 1,300 mn

Employees (FTE)

556
STRABAG facilities¹⁾

VERTICAL INTEGRATION

Own construction materials network

Our construction materials network secures our supply of resources from within the Group while reducing our dependence on external suppliers.

We operate one of the densest construction material networks in Europe, with a total of 556 production facilities. 86% of the asphalt required is produced in-house. As part of Strategy 2030, special focus is placed on circularity and sustainable construction materials.

Self-supply of key materials

Asphalt

272

Asphalt mixing plants

Concrete

134

Concrete mixing plants

Cement

4

Cement mixing plants

Stone/Gravel

146

Quarries and gravel pits

Competitive advantage

- Secures **availability** – especially in times of constrained supply chains
- Acts as a **hedge against price fluctuations**
- Existing quarries serve as **effective entry barriers** – limited permits for new sites
- Joint venture with LafargeHolcim ensures cement access in CEE
- Increasing self-sufficiency as a strategic objective

S+E Segment allocation²⁾

 8 Country presence
 18 Locations
 > 650 Projects delivered

VERTICAL INTEGRATION

Real estate project development

STRABAG Real Estate (SRE) has been planning, constructing, and selling properties for around 60 years and has also been a service provider if required.

Our concepts are geared towards the needs of the people who work, live, stay, or shop in our buildings. Proximity to our customers is important to us. With more than 650 projects, we are one of the largest property developers in Europe.

Focus on selected asset classes

- Residential
- Office
- Retail
- Hospitality

Output contribution by region | %

Competitive advantage

- **Vertical integration** – from concept and development through planning, construction and marketing
- Development and construction synergy leads to **reliable cost planning** and **risk control**
- **End-to-end ESG integration** from development to construction
- SRE contributes deep market insights and local expertise
- Supports core construction operations

VERTICAL INTEGRATION

Public-Private Partnerships (PPP)

We have been working successfully with operator models for more than three decades. Our strong financial position allows us to act as equity provider for concession companies more easily than other companies.

With specialist providers from within the Group, we efficiently cover all requirements – from structuring and financing to planning, construction and operation.

Focus / Markets

- **Transportation infrastructures**
Focus on road and motorway projects
- **Energy and water infrastructures**
Focus on solar, battery, geothermal and water infrastructure projects
- **Building construction**
Focus on social infrastructure
- Core markets: Germany, Austria, CEE
- Selected international markets

Total project volume | %

- Transportation infrastructures | 14 projects
- Energy and water infrastructures | 7 projects
- Building construction | 23 projects

Competitive advantage

- Long-term concessions generate **stable** and **predictable cashflows**
- **Complementary business** mix – capital-light construction and long-term PPP investments
- **High entry barriers** – PPP expertise and financial strength (STRABAG: equity > 30%)
- PPP projects are typically financed with a mixture of STRABAG's own equity capital and third-party financing
- PPP assets usually remain on STRABAG's balance sheet throughout the concession term
- STRABAG covers the entire value chain (design, construction, operations, financing)

I+S Segment allocation

VERTICAL INTEGRATION

STRABAG

Property and Facility Services (PFS)

PFS is an integrated building solutions provider and one-stop-shop for decarbonised buildings – in every phase of the lifecycle.

PFS combines facility management with data-driven approaches and installation expertise in the provision of building services – with a high level of in-house expertise across the value chain.

Activities

- Technical Facility Management
- Building Technology
- Infrastructural Facility Management
- Property Management
- Industrial Services

Output contribution by region | %

- | | | |
|--|---|--|
| ■ Germany | ■ Czech Republic | ■ Luxemburg |
| ■ Austria | ■ Poland | ■ Slovakia |

Competitive advantage

- Multi-year service contracts (3–5 years) **balance seasonal and economic cycles**
- **End-to-end value chain** – from planning and construction to operation and maintenance
- Building operations account for 28% of global CO₂ emissions – PFS first point of contact for property owners in **building decarbonisation**
- **Integrated FM and MEP¹⁾ services** drive future growth (PFS grew by 8% in 2025)
- Data-driven operations enabling building performance optimisation

I+S Segment allocation

2025 FY figures | 1) FM = facility management; MEP = mechanical, electrical and plumbing

BMTI

BMTI at a glance

STRABAG BMTI is the machinery and equipment service provider for the STRABAG Group. It oversees the Group-wide operational management of mobile assets (construction machinery, vehicles and mechanical equipment such as cranes, loaders and trucks) based on standardised policies.

Activities

- Lifecycle management from investment decisions and procurement to servicing, rental and resale
- Internal rental and maintenance services across the Group
- Coordination of external equipment rentals to cover peak demands

Competitive advantage

- High level of self-sufficiency and **independence**
- Key driver of STRABAG’s **sustainability** strategy by supporting the transition to renewable-powered machinery
- Commitment to **automation** and digitalisation

SID

SID at a glance

SID (STRABAG Innovation & Digitalisation) is STRABAG's dedicated central unit for driving innovation, digital transformation and sustainability across the Group. Its mission is to strengthen and maintain STRABAG's technology leadership.

Activities

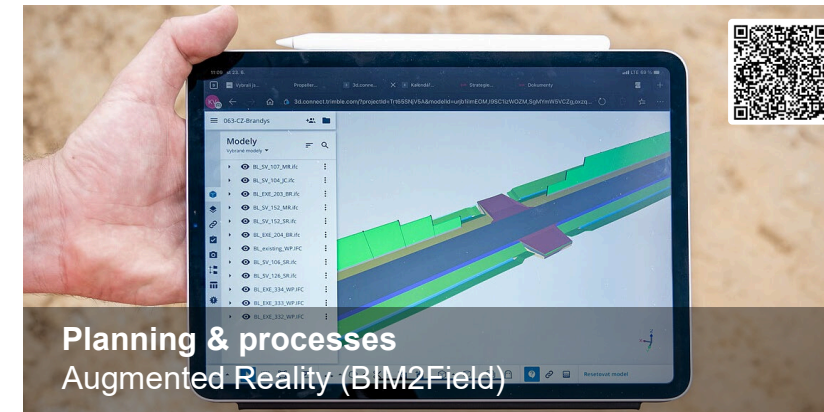

- Initiation and implementation of innovation and digitalisation projects across the entire value chain
- Development of smart, sustainable solutions to reduce CO₂ emissions, material use and waste
- Leveraging data, automation, and interdisciplinary collaboration to optimise processes and unlock new business models

Competitive advantage

- Over 250 active innovation and digitalisation projects
- Strong partnerships with startups and internal talent programmes like adASTRA to foster **new technologies** and **business models**

TPA – one of the
largest private
laboratories in Europe

TPA

TPA at a glance

TPA is STRABAG's centre of excellence for construction materials and technology, specialising in asphalt, concrete, soil, geotechnics, environmental technology and engineering. As one of Europe's largest independent lab network, it ensures quality and implement innovations across the Group's construction projects.

Activities

- Quality assurance for construction projects and production units through advanced testing and consulting
- Evaluation and optimisation of construction materials and methods
- Development and support in the implementation of new construction materials and technologies

Competitive advantage

- Independent lab **expertise** with broad European reach and **cutting-edge technology**
- Strong foundation of **interdisciplinary know-how**, accelerating **innovation and assuring quality** across the Group

ZT

ZT at a glance

Zentrale Technik (ZT) is STRABAG's central hub of technical expertise, supporting projects along the entire construction chain throughout all project phases. ZT plays a key role in driving STRABAG's technological leadership and ensuring efficient, low-risk and cost-optimised execution.

Activities

- Technical services across all project stages: from acquisition and design to execution and warranty management
- Cross-disciplinary collaboration for integrated project delivery
- Specialised in model-based design, modular construction and reconstruction, conversion and refurbishment ("Bauen im Bestand")

Competitive advantage

- Strategic enabler for **early project involvement**, **risk identification** and **data control**
- **Modular, scalable solutions** powered by digital processes (e.g. BIM 5D@)
- International reach with efficient **cost structure**

Strategic focus topics

Strategic goals

On the basis of science-based targets, we are reducing the following from 2023–2030:

- Scope 1 & Scope 2 emissions by 42%
- Scope 3 emissions by 25%

By 2040, we want to

- reduce Scope 1, 2 & 3 emissions as far as possible and achieve climate neutrality in line with the 1.5 °C target.

We are putting circular economy principles into practice through:

- Reduction in the consumption of primary raw materials
- Reduction of waste
- Preservation of resources at a high level of quality

We protect biodiversity and ecosystems by:

- Reducing our negative impacts on flora, fauna and fungi
- Promoting biodiversity in all project phases and at sites in biodiversity-sensitive areas
- Providing awareness-raising and employee training
- Sourcing and using raw materials sustainably

Cluster of measures

- Scope 1: Electrification, switching fuel types, increasing energy efficiency, use of renewable energies
- Scope 2: Generation and use of renewable energies
- Scope 3: Supply chain engagement, offering low-emission buildings

- Circular planning & circular construction materials
- Zero waste construction sites
- Selective demolition
- Reconstruction, conversion & refurbishment
- Value stream management & high-quality recycling

- Establishment of biodiversity management
- Establishment of monitoring and definition of metrics (KPIs)
- Employee training

1) STRABAG's climate targets through 2030 are validated by the Science Based Targets initiative (SBTi)

We focus on science-based climate targets

STRABAG commits to SBTi

- STRABAG is pursuing a science-based reduction path for its CO₂e emissions
- Commitment to the 1.5°C target of the Paris Agreement
- STRABAG's climate targets through 2030 are validated by the Science Based Targets initiative (SBTi)

Our commitment to social responsibility

Strategic focus topics

Our employees

Human rights along the value chain

Added value for society

Strategic goals

We promote the wellbeing of our employees through:

- EDI: Gender pay gap of 0; annual increase in the percentage of women in management by 6%
- HSW: Vision Zero – zero accidents
- Implementation of the Social Compliance Management System

We protect human rights through:

- Implementation of the Social Compliance Management System
- Compliance with human rights and our corporate due diligence obligations

We create added value for society by:

- Generating positive impacts for society
- Improving our engagement with and involvement of affected communities

Cluster of measures

- Mandatory EDI training for all managers
- Human rights risk analysis
- Preventive actions and remedies
- Whistleblower system

- Human rights risk analysis
- Preventive actions and remedies
- Whistleblower system
- Implementation of stakeholder engagement formats

- Implementation of guideline for interaction with affected communities
- Implementation of stakeholder engagement formats

Our engagement in governance

Strategic focus topics

Strategic goals

We avoid corruption and anti-competitive behaviour by:

- Promoting compliant and ethical conduct through comprehensive measures for employees and leaders
- Strengthening a corporate culture based on trust and partnership
- Firmly anchoring these issues as a management responsibility

Cluster of measures

- Avoidance of anti-competitive violations
- Prevention of economic crime
- Awareness-raising among all employees
- Mandatory business compliance training
- Certification to ISO 37001 (Anti-Bribery Management Systems)
- Certification to ISO 37301 (Compliance Management Systems)

We have established clear structures and responsibilities by:

- Embedding environmental and social sustainability in STRABAG's core business as a prerequisite for achieving our corporate goals
- Implementing a Group-wide governance structure and clear processes

- Consolidation of the governance structure
- Expansion of ESG risk management
- ESG as agenda item at every Management Board meeting
- Steady improvement in ESG ratings

ESG commitment confirmed by solid ratings

STRABAG Hold Estate

Dipl.-Ing. (FH) Péter Glöckler
Member of the Management Board

Joined STRABAG in 2003

Segment South + East:
Austria, Poland, Czech Republic,
Slovakia, Hungary, Romania,
South-East Europe, Rest of Europe,
Construction Materials

The STRABAG story began in 1835

STRABAG Group traces its roots to Anton Lerchbauer's family business (1835) & Heinrich Reif-enrath's company (1895), leading to the founding of the "STRASSENBAU-ACTIENGESELLSCHAFT" in 1923.

1835
-
1910

Early on, STRABAG focused on technical achievements, including the Langwieser Viaduct and a pioneering road construction lab (1927).

1911
-
1932

After the Nazi takeover, STRABAG continued construction and acknowledges its historical responsibility, supporting the Reconciliation Fund and EVZ Foundation.

1933
-
1945

In 1953, STRABAG built the Wadi Thartar dam and expanded globally in 1955 with "STRABAG Nigeria Ltd.," while also completing local projects like the Hochfilzen magnesite plant.

1946
-
1959

1960
-
1979

STRABAG advanced with new technologies like hydraulic tunnel boring and the construction of the Arlberg Tunnel, adopting electronic data processing in 1961.

1980
-
1999

In the 1990s, BAU HOLDING AG and STRABAG AG became sister companies. STRABAG expanded into new markets, working on East Germany's rail network and global projects like the Xiaolangdi Dam.

2000
-
2021

STRABAG digitalises construction with BIM and robots. After acquiring ZÜBLIN in 2006, it earned the first "sustainable construction site" certification in 2021.

Since
2022

STRABAG targets climate neutrality by 2040. Led by the then CEO Klemens Haselsteiner, its 86,000 employees focus on People, Planet, and Progress to drive innovation.

Leading market positions

Germany		
1	STRABAG	8.9
2	Vinci	4.7
3	Zech Group	4.3
4	Goldbeck	3.9
5	Max Bögl	2.3

Hungary
